June 22, 2020

Dear Parents and Families,

We hope you are well and staying safe during these unprecedented times. As you know, we quickly adapted to school campus closures and began remote live instruction. We finished the year with higher student attendance. Students continued to learn and engaged daily with their teachers and classmates through Colēgia.

We know you have questions about the upcoming school year. Rest assured: We are in constant contact with national and local government agencies to provide a safe environment for our students. We will implement additional safety precautions to ensure that classrooms are safe. We expect to create a plan in which some students may attend school in person, while others may engage in remote live instruction. In the coming weeks we will send out a survey to assist us in the decisions we are making regarding your student’s learning environment.

We at Somerset Academy St. Lucie understand how difficult and trying these times can be. However, we look forward to the next school year. As always, we continue to work to make our school a safe place for all students. Here is a short video highlighting the past few months and what our classrooms may look like in August.

No matter what the future brings, you can count on us to be ready to provide a high-quality education for your student. We will provide more information as it becomes available. In the meantime, please feel free to contact us with any questions.

Thank you and remain safe,

Somerset Academy St. Lucie
